New York, May 26.—United States Steel achieved the new high record of 134 7-8 in the course of today's brief but active trading and carried others of its class to top levels for the current movement. The vigorous buying extended to coppers, oils, motors and a wide variety of equipments and specialties, including sugars. A striking feature of the latter division was a 23-point rise in South Porto Rico Sugar to 200.

With one exception, virtually all the developments of the day were of a constructive character. Rubles slumped abruptly on moderate offerings and were in part responsible for the irregular easing of prices in the later dealings. Backwardness of ralls also served to restrain bullish enthusiasm.
